S/ASHIE SUMMIT 2019

11.09.2019

OVERVIEW

InHouse managed key production elements for Brown Girl Magazine who hosted their second annual S/ashie Summit at Location05 in Hudson Yards, NYC. This one day experience brought together South Asian creatives in their desire to build a supportive community and empower other influencers to uncover their purpose.

The Summit took place on two floors and InHouse handled all audio, lighting, large format print, and video production on both floors. Activation spaces included the main stage, workshop rooms, fashion show runway, and food and beverage areas.
